AN INJUNCTION AGAINST UNION

Enjoining Order Against Organized Printers.

TYPOTHETAE GOES TO LAW FOR AID

Lengthy Petition Backed By a Large Number of Strongly Worded Affidavits is Filed in the Chancery Court and Prayer is Heard.

The printers' strike, now on in Richmond and elsewhere throughout the country, assumed in Richmond yesterday a new and even sensational phase. The proprietors of practically all of the large job printing establishments of the city, save one, united in a prayer to Judge Daniel Grinnan, of the Chancery Court, for a sweeping injunction against Typographical Union, No. 90, as a whole, and eighty-seven of its members as individuals, to estop them as an organization

uals, to estop them as an organization and as individuals from interfering with the business operations of the aforesaid printing establishments.

Judge Grinnan granted the injunction prayed for, and made it returnable November 6th. In the meantime the union or any member thereof can go before the court with a motion to dissolve the injunction, and the probability is that this will be done either to-morrow or Tuesday. Sheriff Epps last night served notices of the injunction on nearly all the members of the union, and the service was a bombshell in the clamp.

shell in the camp.

Mr. Wyndham R. Meredith represented the petitioners, and their prayer was signed by almost every job printing establishment in the city, excent J. W. Fergusson and Son, who have compiled with the demands of the strikers and are no longer in the fight.

The Ctrike and Why

The Strike and Why.

On the 11th day of September last Typographical Union, No. 99, through its president, M. R. Pace, served notice on the job printing establishments of Richmond, and the stable of Richmond, and the stable of Richmond. dent, M. R. Pace, served notice on the job printing establishments of Richmond, all, or nearly all, of which are members of the Richmond Typothetae, that unless they agreed within six hours to reduce the working hours of typesetters employed by them to eight hours per day on and after January 1st, they (the printers) would walk out. The job offices declined to enter into any such agreement, and the strike was on. The next morning not over a half a dozen printers showed up at their cases.

Many Affidavits.

Many Affidavits.

The petition covers about a dozen pages of closely typewritten legal cap, and goes into details at great length. It is signed by the Everett Waddey Company, Williams Printing Company, E. R. Lafferty, Mitchell and Hotchkiss, The Hermitage Press, Flanhart Printing Company, Clyde W. Saunders, Ware and Duke, Walthall Printing Company, Whittet and Shepperson, and Baughman Statiofery Company, The petition is sustained by the affidavits of twenty-one persons, who make lengthy sworn statements of personal knowledge of the facts set forth.

Most of these affidavits are by printers employed by the petitioners, who claim to have been buildozed, threatened and offered bribes, etc., to quit the cases. Some are signed by boarding house keepers, who claim to have suffered great annoyance by visits of strikers to their premises at all times of the day and night in the furtherance of efforts to drive the printers out of town.

NORFOLK, VA., October 21.—On La-rayette Field, before a crowd of 2,500 wildly enthusiastic, orange and bille bewildly enthusiastic, orange and blue be-decked men and women, the foot-ball team from Virginia's University this af-ternoon defeated the eleven from Buck-

nell College by the score of 15 to 11.

It was a game full of sensational plays that kept the gallery on edge with suspense, for until the referee's whistle blew at the end of the heart-breaking work of the second half, the game was anybody's and a single fluke might have turned the ilde in the direction of the Pennsylvanians.

Unsteady Game.

The game, while brilliant, was unsteady, and, on the part of Bucknell, played with poor judgment. Fumbles without number were made by both sides, with Virginia leading in this respect, and it is a fact that one at least of Bucknell's touchdowns would never have been made except for a bad, fumble by Randolph, made within twelve vards of the Virginia

On the other hand, Bucknell's field n showed great lack of judgment, having the ball within three yards

Work Very Difficult.

The work is as difficult at it is import at: and it is of course inevitable that

our people as a whole possess not only faith, but resolution, and are of to virile fiber to be swept one way or he other by mere sensationalism. No check that may come will be of me than trivial and passing consequence, will inflet any permanent darlarge or couse any serious delay. The work can be done, is being done, and will be done. What has already been accomplished is a guaranty as to the future.

When any successive work is undertaken there are always many mere adventurers who flock to where it is going on, and many men who think they are adventurers, but who are in reality either weak or timid, follow in their footsteps. Some of the first class will now and then cause trouble in one way or another. But every care will be taken to detect any misdeed on their part and to punish them as soon as the misdeed is detected. As for the second inside the detected and the conditions of the first part and to punish them as soon as the misdeed is detected. As for the second inside the detected and the conditions of life are not easy, or that they are not huppy and that the conditions of life are not easy, or that the work are not huppy and that the conditions of life are not easy, or that the work is not being done as they think it ought to be done. The administration is steadily becoming better and more effective from the hygienic as well as from every other; standpoint. The work of building the canal is a great American work, in which the whole American peop e are interested. It has nothing to do with parties or partnershop, and is being carried on with absolute disregard to all merely political considerations; with regard only to efficiency, honesty, and economy.
